

**CAMX**<sup>®</sup> **CAMALEÓN**-unlimited changes!

collection

The CAMALEÓN - CAMX® collection is unique of its kind and anything but run-of-the-mill. The CAMX® stands out for its adaptable, sophisticated design and performance. There are no restrictions on the different front panels which can be individually adapted in colour and material to suit you or your surroundings. You know how you want your computer to look, we turn it into reality.

The totally silent CAMX® is produced as a limited edition and individually numbered. If you own a CAMX®, you possess something unique!

And certainly not the least point in its favour is the “Made in Switzerland” quality mark, which is your assurance of excellent workmanship, high quality and long life.
